

EXPLANATION

ISOPACHS OF THE MENEFEE I COAL BED - Showing thickness in feet. Isopach interval 1 foot (0.3 meters). Isopachs long dashed where inferred, short dashed where projected through noncoal-bearing areas.

TRACE OF COAL BED OUTCROP - Showing thickness of Menefee I coal bed, in feet, measured at triangle. Showing symbol of name of coal bed. Arrow points to coal-bearing area. Dashed line indicates inferred outcrop.

To convert feet to meters, multiply feet by 0.3048.

Menefee coal beds isopachsed as a single bed on this map are equivalent in stratigraphic position but may not be continuous.
